

## Why use a headset?

**Free your hands.** The most obvious benefit of a headset is that it frees you from holding the telephone handset. And lets you put both hands to work, comfortably.

**Get more done.** A headset makes you more productive, letting you write, type, page through files, etc. with both hands while you're on the phone.

**Save your neck.** You'll be more comfortable with a headset—no more propping the telephone between your head and shoulder.

## Why choose the GN 5140?

How do you know if the clear and comfortable GN 5140 is right for you? Here's a quick look at the basics:

**Corded headset system.** If you usually work at your desk, or close to it, a corded headset should work for you.

**Over-the-head style.** The GN 5140 has an adjustable headband that stays comfortably and securely in place.

**Sound in one ear (monaural).** Ideal if you like to be aware of what's going on around you during phone calls.

**Noise-canceling microphone.** The right choice if you work in any environment, from quiet to noisy.

**Dual use.** You can use the GN 5140 with both your telephone and your PC.

## Comfort and clarity you can count on.

If you're looking for an affordable headset that gives you more for your money, take a look at the GN 5140. You get a noise-canceling microphone for superior sound. A choice of comfortable, custom-fitting ear cushions. And real versatility—you can use the GN 5140 with both your telephone and your PC!

### Solid performance.

The GN 5140 gets the job done. The headset is light and comfortable, yet stable and secure. The coated alloy headband adjusts to fit you perfectly. The flexible microphone boom and noise-canceling microphone ensure your voice is clearly heard. And the pivoting speaker, with its choice of leatherette or foam ear cushions, aligns to your ear for optimal sound quality.

The GN 5140 amplifier gives you the control you need with just a few switches. You can dial in the perfect volume and tone. Choose the headset or your telephone's handset. And select either telephone—virtually any corded phone—or PC. With the GN 5140, you're even ready for PC audio applications, like speech recognition and video conferencing. But for all its capability, the GN 5140 is amazingly compact. It won't clutter up your workspace with wires, either, since it's powered by two AA batteries.

### Hard-working, but not hard to work.

The GN 5140 is built for reliability. But it's a model of simplicity, too. Even if you want to use it for both PC and phone use, the GN 5140 is a snap to set up. In minutes, you'll be enjoying the all-day comfort, superior clarity and solid reliability of a GN Netcom headset.
